

## Working together with Amicta Sole

### Consultation Meeting

- Details and nature of project confirmed
- Images or words of inspiration shared
- Body measurements taken if needed
- Schedule and deadlines agreed upon

**First Fitting** is scheduled for the client to try on the design created out of sample fabric. This is the time to make any changes or fit adjustments, as this sample will guide the final work.

**Second Fitting** is for the client to try on the design created out of the fashion fabric prior to completely finishing the hem and linings so that adjustments may be made if necessary.

**Final Fitting and Pick-up** is scheduled. Depending of the nature of the project, more fittings may be added.

Contact me with any questions regarding specific project outlines and pricing.
